April 24, 2013

Currie Rose Resources Inc. intends to complete a non-brokered private placement consisting of up to 20,000,000 units at a price of \$0.05 per unit for gross proceeds of up to \$1,000,000. Each unit shall consist of one common share of the Company and one-half of one share purchase warrant, each whole warrant entitling the holder thereof to purchase one additional common share at a price of \$0.12 for a period of 18 months from the closing date.

The expiry date of the warrants will be accelerated to shorten the exercise period to 30 days should the shares of the Company trade at \$0.20 or higher for a period of 20 consecutive trading days. Such acceleration will only occur after the hold period expires.

Finder's fees equal to 8% cash fee of the total amount raised and 10% of the total Units sold in the form of finder's warrants, whereby one finder's warrant entitles the holder to acquire one Common Share of the Company at \$0.12 per share for a period of eighteen months from the date of issue, will be paid. The finder's warrants will have the same accelerated expiry date provision as the warrants under the private placement.

Proceeds from the financing will be used to advance the Company's Isibaya Platinum project in the Eastern Bushveld Complex in South Africa. There is a Power Point Presentation of the properties on the Company website. A 43-101 has been completed on the property and is also posted on the Company's web site at www.currierose.com.
